## IMD 100s

### Owl City

My first re-design in IMD100. It was for the band Owl City. What was cool was while I was redesigning it for a class assignment, the actual site was redesigned just weeks later. With this project I learned about setting content in images with the load time remaining small. [Click here](#) for live site.

### 4 Things

This was one of my first experiences in Flash. It is not my favorite program, however I did enjoy illustrating the piece. It is all hand rendered. [Click here](#) for live view.
